The image shows a close-up, vertical view of a dark brown wood surface. The wood grain is prominent, with vertical lines and subtle variations in color from deep chocolate to near-black tones. There are some fine, light-colored fibers and small imperfections visible on the surface.

檀木SM-05

檀木SM-06

The image shows a close-up, vertical view of a wood grain. The texture is characterized by numerous vertical, slightly wavy lines that create a sense of depth and movement. The color palette is a range of natural wood tones, from light tan and beige to deep, rich browns and near-black shadows, highlighting the natural grain patterns and knots. The lighting appears to come from the side, casting soft shadows that emphasize the three-dimensional quality of the wood's surface.

斑马SM-115

The image displays a close-up of a wood surface with a prominent vertical grain pattern. The wood is characterized by alternating vertical stripes of dark brown and reddish-brown. The texture is slightly uneven, with some fine cracks and natural imperfections visible. The lighting is even, highlighting the natural grain of the wood.

SML-LS-13

The image shows a close-up of a textured surface, likely a material like leather or a synthetic equivalent. The texture is characterized by a series of vertical, wavy ridges that run from the top to the bottom of the frame. The ridges are closely spaced and have a slightly irregular, organic appearance. The color is a muted, earthy brown or tan. The lighting is soft and even, highlighting the three-dimensional quality of the ridges.
